PROFESSIONAL SUMMARY

Full-stack developer and Development Trainee at DKM Online, deployed at HCL GUVI. Experienced in Go, Redis, Qwik, MERN Stack, REST APIs, MongoDB, TypeScript, Git, and GitHub for building performance-optimized, scalable web applications. Computer Science (Data Science) graduate with a strong foundation in data structures and algorithms.

EXPERIENCE

Development Trainee — DKM Online (deployed at HCL GUVI)

August 2026 – Present | India

- Engineer backend services in Go and PHP, designing RESTful APIs that power client-facing applications.
- Implement Redis caching layers to cut redundant database reads and speed up access to frequently requested data.
- Build performance-first front-end components with Qwik, using resumability to reduce JavaScript executed on initial page load.
- Develop client-facing dashboards and charts that present onboarded-user data in clear, decision-ready views.
- Contribute through Git and GitHub: feature branches, pull requests, code reviews, and merge conflict resolution

Development Intern — HCL GUVI

May 2026 – August 2026 | India

- Delivered features end to end across the stack: REST API endpoints, MongoDB data models, and PHP/TypeScript front-end components.
- Applied Redis caching to improve response times and built fast-loading UI components with Qwik.
- Styled responsive, accessible interfaces with Tailwind CSS/HTML/CSS and collaborated via Git and GitHub.

PROJECTS

ElevateFit — Full Stack Fitness Web Application

Next.js, TypeScript, Tailwind CSS | GitHub

- Built fitness web platform in Next.js and TypeScript with workout, routine, and nutrition modules.
- Implemented scalable routing, reusable UI components, and Tailwind CSS styling.
- Created the authentication and profile management flow for users.

Book Store Web Application

MERN Stack, Redux Toolkit | GitHub

- Built e-commerce platform using MERN stack with product browsing, cart, and order processing.
- Implemented authentication, protected routes, and Redux Toolkit state management.
- Built admin panel for inventory, user account, and order management.
